Welcome Note

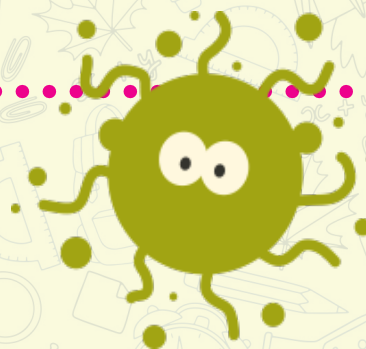

Welcome to the 2019-20 edition of our student-led newsletter, the BWS Times. This year, the school was closed after Chinese New Year because of COVID-19. Our students had to stay at home. Let's see what they did during school suspension and how they felt. We hope that the pandemic will end soon and we will meet at school again.

Stay at home

By 5A Tang On Kiu, Adena

During the pandemic, I stayed at home the whole time. It was really boring because there wasn't much to do, but I learned to discipline myself. I really missed school because staying at home was lonely and boring. I was really excited to go back to school, but I was disappointed because we had to stay 1.5-metre apart. At school, we just had classes like normal and then we had our exams. I really

wanted to go to America during the summer holiday. However, sadly because of the pandemic, I can't go there, I will just be with my family. I am really excited for the coming school year because I can see my friends again. Hopefully, the pandemic will end before the next school year.

School suspension

By 5B Chu Lai Fung, Marcus

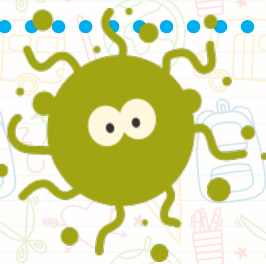

During the school suspension, I did many things such as learning how to ride a bike and moving to a new home. Now I can ride a bicycle from Lohas Park to Tiu Keng Leng. I needed to move to my new home during the school suspension. I learned the importance of tidying all the stuff at home. If I do not keep tidying the things properly, my home will be messy.

During the school suspension, I learned how to use 'Zoom' by myself and I could learn new things with different apps. I did not need to go to an education centre during the widespread of COVID-19 by using Zoom. I felt worried because many people were infected by coronavirus. I was also worried about the exam when school resumed.

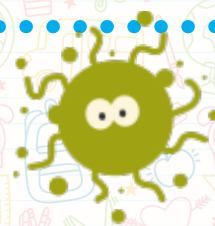

If the COVID-19 pandemic ends, I will visit Taiwan because I love the local snacks there very much. Taekwondo is very famous in Taiwan. I will also join their training tour by then. During my summer holiday, I will do Taekwondo at home for two hours every day.

I expect to meet new friends and learn new knowledge about STEM. In the coming school year, I hope that I can develop new skills like problem sloving skill and creative thinking skill.

Stay at home

By 5A Hong Chi Yin, Tommy

I had to stay at home during the school suspension. I learned some new words and idioms like 'to lend a hand' and 'to raise some eyebrows'. I felt very bored during the school suspension. However, after I went back to school, I felt very excited because I could see my friends. I think during the summer holiday, we will need to stay home because of COVID-19. I am very excited for my new school year because I hope to meet all my teachers and classmates.

Games suggestion during quarantine

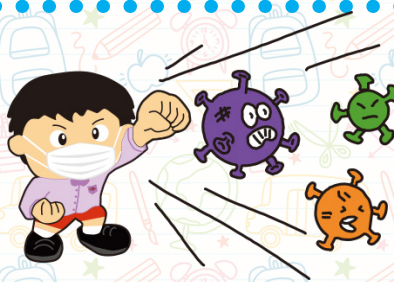

By 5B Kyle Cheng

If you're bored because of quarantine, try to play Roblox. There are a lot of exciting and thrilling games, like Islands and Dekay. Islands is a game that you can build your imaginations and have adventures with friends. Or if you

want a zombie apocalypse game, you can try Dekay. Dekay is basically a zombie survival game that you need to shoot, defend the place and you need to have teamwork. Each wave will have more zombies and it will be more difficult.

That's all the games that I can think of. If you want to play more, you can try to search online for more games.

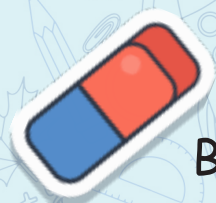

School Suspension

By 5B Chan King Yiu, Reagan

During the school suspension, I kept on watching videos and playing games. I thought it was bad because I had to study hard for the exam. I didn't go anywhere during the school suspension. I stayed at home to do all the tasks that our teachers assigned us. I felt overjoyed at first, but I felt bored after the first week of school suspension. I felt uncomfortable and tired because I woke up late. I had to do a lot of self-learning tasks. I hope that the pandemic will end soon. I want to go to theme parks to ride on roller coasters. I will be excited to see all my classmates at school. I miss them very much.

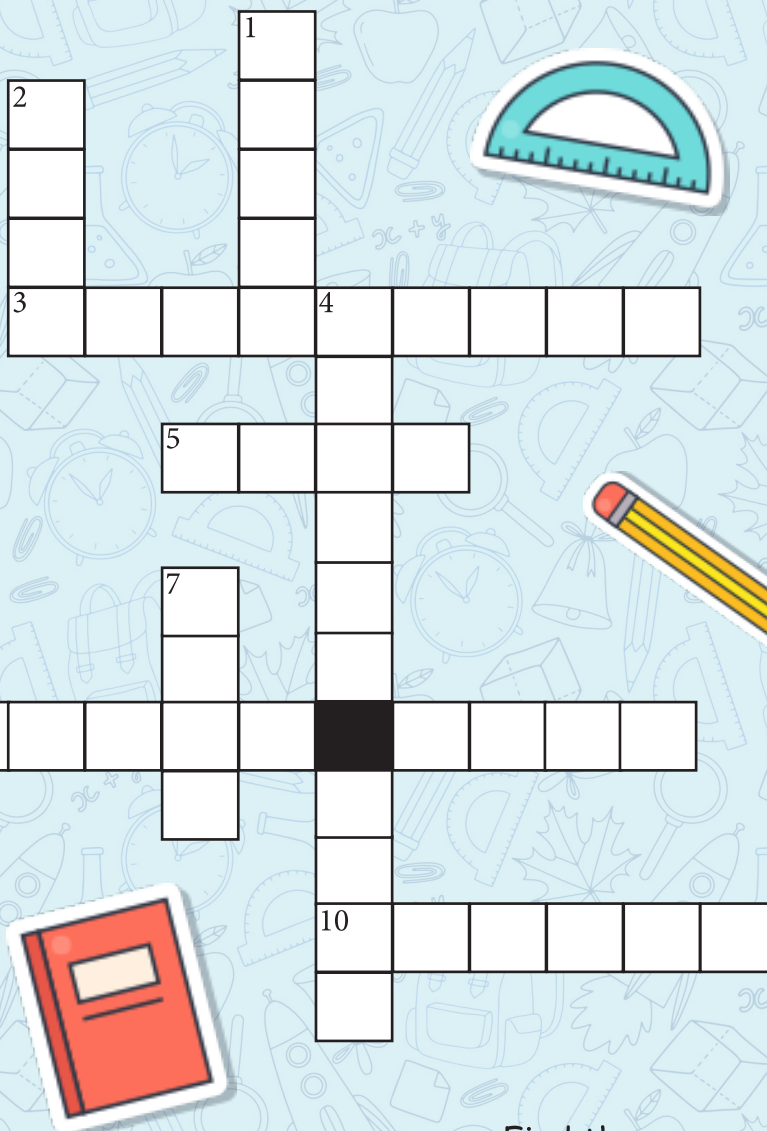

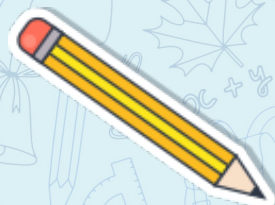

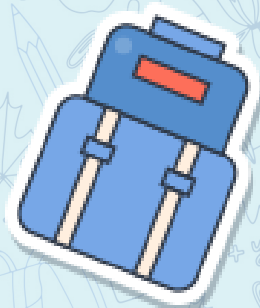

Things in your school bag

By 5A Hong Chi Yin, Tommy & Mr Daniel Edwards

Read the hints and then guess the words to fill in the crossword puzzle.
If a word doesn't fit, it is probably not the right word.

Down

1. A thing to find out how long something is.
2. Things that you play with.
4. Something you can put long thin things for drawing and writing.
6. Work that is to be done at home rather than at school.
7. A bunch of paper stuck together with two covers.
9. A thing used to erase writing or marks.

Across

3. A thing used to make pencils sharp
5. Long, thin tools used for writing or drawing in ink.
8. A thing used to cover mistakes.
10. Small meals you can eat between bigger meals.
