### A day at Chinese University

We took a bus up on the hill to the Chinese University. vThere are many flowers and birds at the garden there. I love it very much. We cannot feed the birds there because there is a sign with the warning ' Don't feed the birds'. The birds were scared of me because I jumped and ran to them.

We took many beautiful pictures at the university. We also went to the Lotus Pond to see lotus. There were many fishes in different colours such as orange, red and green. I wish I can join my brother, Ansel's classes so I can come more often.

What a wonderful day!

**Riddle of my favourite season**

Let me tell you about my favourite season.

It is cold and dry.

I like to watch Christmas lights at that time. I also like to run in the park. At night, we have hotpots at home. Besides, it is my birthday in December.

Answer: It is winter.

### **Butterfly**

One day, I was hiking in a forest when I saw something amazing. It had two orange wings with white dots on them. It was fluttering along the path then it landed on my nose.

Awesome! It was a butterfly!
